CITY WELFARE BUREAU

ESTABLISHED UNDER 1917 ORDINANCE WITH MRS. BLACKBURN AS WELFARE WORKER

At the meeting of the Glendale City Council Thursday evening came into being the Glendale City Welfare Bureau for which provision was made in an ordinance passed on the 13th day of December, 1917. The need of such an organization to look after the interests of the unfortunate was recognized at that time else the ordinance would not have been passed, but in the strenuous anxieties of war it had to give place to the more acute needs of the conflict.

Now when we are turning to our own home problems and celebrating the cessation of hostilities, it has been thought wise to make use of this ordinance to so organize philanthropic endeavor that all local cases of need will be met and at the same time duplication of help will be avoided. All the churches are organized to help the needy and every other prominent organization whether it be the Elks, the Masons, the Tuesday Afternoon Club or the P.-T. A. Federation, has its philanthropic committee.

It was believed if these could be organized into a Welfare Council which would co-operate with a Welfare Bureau established by the city, the work would be more efficiently and intelligently done than would be the case were each unit to work separately.

Accordingly a committee of citizens called upon city officials and outlined a plan which was submitted to the City Trustees and approved by them after being considered in a committee of the whole.

Briefly the proposition called for the employment by the city of a Welfare Worker who would be required to spend three hours three days a week at the office assigned her in the City Hall, whose duty it would be to receive reports of cases of need and to investigate such cases, also to have general care of all philanthropic

THE PUMPKIN CONTEST

The guessing contest on the weight of the big, shiny pumpkin which has centered the show window of Cornwell & Kelty for the past ten days, ended last night and the names of the winners have been announced by the firm this morning. The prize offered for adults went to J. W. Lawson, who guessed 79 pounds, three ounces. The real weight was 79 pounds two ounces. Mr. Lawson is a good guesser and was rewarded with the Pyrene Fire Extinguisher offered as a prize. Two other prizes were bestowed upon the boy and girl who made the best guesses. Joseph Eyraud, who lives in the south end of the city on Ross street, guessed 79 pounds and won a 22-rifle. Clara Puffer, of Vine street, also guessed 79 pounds and won a nice tennis racquet.

This is the eighth contest of this kind which has taken place at the Cornwell & Kelty store and the proprietors propose to keep it going. Next year they plan to send north to Washington where things are done on a large scale and import from there the largest pumpkin that can be located.

HALLOWE'EN PARTY

TEACHERS OBSERVE ALL SAINTS' NIGHT WITH UNIQUE RITES

Under the able direction of Miss Ida M. Waite, chairman of the social committee, and Miss May Cornwell, chairman of the program committee, a most delightful Hallowe'en social and entertainment was given the members of the Glendale City Teachers' Club at the Intermediate School Thursday evening.

Each school contributed a "stunt," the teachers of the Intermediate leading with two pantomimes: "The Flirt," and "Wanted, a Wife." "The Flirt" was a marked success starring Miss Gladys Sharpe, supported by the popular male cast: White, Blanford, Fullen and Hockett. "Wanted, a Wife," was an all-star production, with Mr. Ross, leading man, and Miss Midcalf, leading lady.

Colorado Boulevard presented the Witches' Post-Office where the wanderers were lured to learn their fate by the cheery camp fire in the cornfield.

Perhaps the most dignified and royal performance was put on by the Columbus Avenue School representing their Royal Highnesses, the King and Queen of Belgium, in royal procession with all the splendor of costly robes and jeweled crowns. Miss

ARMISTICE DAY

PLANS BEING MADE FOR CIVIC CELEBRATION IN GLENDALE NOVEMBER 11TH

On Friday afternoon a group of representative citizens of Glendale met at the Intermediate School to formulate plans whereby the City of Glendale should take steps toward celebrating Armistice Day November 11th, and it was decided that no better recognition of patriotic endeavor could be made than by a reception in honor of the Service Men of Glendale.

Chairmen of committees were appointed and it was voted to invite church and other organizations to cooperate in an affair which would be worthy of the city. The following chairmen were appointed:

Speakers—T. W. Watson.
Program—Mrs. E. B. Moore.
Decoration—Miss Muller.
Refreshments—Mrs. John Robert White.
Publicity—Miss Eva Daniels.

The reception will be held in the "Gym" of the Glendale Union High School at 8 o'clock, November 11th.

"GLEN LAURIE" PARTY

MR. AND MRS. R. M. YOST ENTERTAIN FOR DAUGHTER, TAMSON

Hallowe'en was celebrated at "Glen Laurie," the Verdugo Canyon home of Mr. and Mrs. R. M. Yost, with a typical "Apple and Pumpkin Party" of the old days at which their daughter, Tamson, served as hostess.

The big villa was beautifully decorated in gold and black. A cave had been made of the main entrance to the house by stretching awnings over the doorway and masking the sides of the deep porch with autumn leaves and woodbine.

Through this cave-like entrance the little guests were ushered into the soft glow of the big living rooms, dining room and library where the chief activities of the evening centered.

The spirit of Hallowe'en had been carried out in color and decoration. The lights were masked with pumpkin-colored silk while dark, evil-appearing witches rode their brooms majestically from one side of the room to another and the croaking of frogs from time to time added to the solemnity of the occasion.

Arbors of chrysanthemums, dahlias and other autumn flowers were everywhere. Toy pumpkins, horns, masks, hand painted cards and various other souvenirs served as favors when the Hallowe'en supper was served.

A dozen or more new and unique games were indulged in during the evening and shortly before midnight the children were taken by automobiles to their Glendale homes.

Assisting Mrs. Yost in the entertainment of the evening were Mrs. Harry Rogers, Mrs. Dr. Richman, Mrs. A. S. Chase and Mrs. William Farlander.

The guests were Cecil Chase, Lorna Richman, Reba Hodge, Jack Finch, Stillman Chase, Alexander Chase, Willard Roberts, David Roberts, Carolyn Ayers, Robert Ayers, Mary Cook, Irene Robinson, Charles Bosserman and Erma Lucas.

CONGREGATIONAL HALLOWE'EN PARTY

The Young People's Society of the Congregational Church held a Hallowe'en party last night at the home of Mr. and Mrs. S. R. Frazee. They played Hallowe'en games, sat around the fireplace and told stories while bundles of fagots burned, and then, following the alluring sounds of ghostly music, they found themselves in a cold, dark place where a ghost appeared and told a story. The guests found fortunes in doughnuts which were suspended with strings. The evening ended with a marshmallow roast.

The guests included Millicent Alvord, Gladys Thistlewhite, Mary and Mildred Wright, Stella and Emily Bellue, Marjorie Yarick, Margaret Frazee, Evelyn Shaw, Isabel Franklin, Horace MacRae, Thomas Wood, Donald Franklin, Benjamin Robinson, Robert Frazee, Lucien Shaw, Mr. and Mrs. Hartley Shaw and Mr. and Mrs. S. R. Frazee.

GUESTS FROM SOUTH

Mr. and Mrs. Ray McCollough, of Louisville, Kentucky, are visiting Mrs. McCollough's brother, J. G. Peart, of 111 East Elk avenue. They are very much pleased with Glendale and are planning to locate here permanently.

COAL MINERS OBEY STRIKE ORDER

FOUR HUNDRED THOUSAND MEN SAID TO BE NOW OUT—NO VIOLENCE YET REPORTED

(Special Service to Glendale Evening News)

NEW YORK, Nov. 1.—Defying the injunction issued at Indianapolis yesterday, the bituminous coal miners struck this morning in accordance with their schedule.

Reports indicate that the strike order was generally heeded and only isolated cases where the men remained at work were reported. The exact situation as to how complete is the shut-down of the mines probably will remain indefinite until Monday as today is a part holiday in many mines and also isachurch holiday.

Union headquarters estimated that 400,000 men now are out. That is practically the entire union membership. In most instances the mine owners would make no estimate of the number out, but where they did their figures were usually much lower than the union figures, though in one or two cases the two sides agreed.

Among the most important fields the unions claimed 100,000 were out in the Pittsburg and Clearfield district and the mine owners claimed that 40,000 had remained at work in the Connollsville region. Other union figures were: Central Illinois, 80,000; Ohio, ninety-five per cent of the total number of miners; Kansas, 12,000; Ohio and West Virginia, 45,000; Southern Illinois and Missouri, 31,000; Southern Indiana, "all out;" Alabama, 20,000; West Virginia, 17,000, and smaller numbers elsewhere.

Early reports failed to reveal any violence. Governor Kilby of Alabama ordered the National Guard partially mobilized as a precautionary measure.

The Sanger Coal Co., at Springfield, Illinois, received a telegraphic order from the army quartermaster's department that it was expected to fill contracts with the army. The order was read to the men employed, but they refused to heed it. The company then appealed to the Governor for protection for its plant.

SEATTLE, Wash., Nov. 1.—Six thousand miners in seventy mines went on strike this morning in the State of Washington. This is the only section of the coast with the exception of Montana which is seriously affected.

BUTTE, Mont., Nov. 1.—Approximately 4000 miners in thirteen mines struck here in accordance with the coal strike order.

UNITED MINE WORKERS OF AMERICA

ORGANIZATION PLANS STUBBORN FIGHT AGAINST GOVERNMENT'S INJUNCTION ORDER

(Special Service to Glendale Evening News)

INDIANAPOLIS, Nov. 1.—The United Mine Workers of America are planning a stubborn fight against the government's injunction order to union officials directing the strike. Henry Warnum, chief counsel for the union, started preparations for a court contest today.

Fearing that they would violate the injunction, officials at mine workers' headquarters refused to issue any statement today or to discuss the strike.

SINEWS OF WAR

OFFICIALS OF RAILWAY BROTHERHOOD DECLARE THEY HAVE MILLIONS IN STRIKE FUNDS

(Special Service to Glendale Evening News)

WASHINGTON, Nov. 1.—The heads of the Big Four Railway Brotherhood said today they would call a referendum vote of their membership on the government's answer to their wage demands when the answer is in final shape. It is conceded that the miners' strike injunction may have an effect on the vote.

Brotherhood leaders today admitted that their organizations have large strike funds ready. The trainmen alone have over $1,500,000, according to President W. G. Lee, and the engineers and firemen are each understood to have more available for strike purposes than the trainmen.

GERMAN PEOPLE BLAMED

VON BETHMANN-HOLLWEG DECLARES THE PEOPLE WANTED SUBMARINE WARFARE

(Special Service to Glendale Evening News)

BERLIN, Nov. 1.—During a hearing in the Reichstag war investigation, former Chancellor Von Bethmann-Hollweg dramatically charged the military over-lordship "was maintained because the German people themselves wanted it."

He declared that "a great part" of the people demanded submarine warfare believing that it would bring victory and that "an overwhelming majority" of the press and a majority of the Reichstag also favored it. He blamed equally the German people and Field Marshal Von Hindenburg for prolonging the war. He declared the Kaiser was in no position to resist Von Hindenburg even if he had wanted to do so.

PRESIDENT'S CONDITION SATISFACTORY

(Special Service to Glendale Evening News)

WASHINGTON, Nov. 1.—The White House announced that President Wilson's condition is satisfactory today and that he had a good night.

ARCHITECTURAL WORK

ALFRED E. PRIEST OF THIS CITY BUSY WITH VARIETY OF COMMISSIONS

Architect Alfred E. Priest of this city, whose offices are in Los Angeles, has been commissioned to prepare plans for a combined city hall and public library building to be built at Ventura on a site 200 by 250 feet which has been donated by E. P. Foster of that city. The edifice is to cost in the neighborhood of $50,000. It will provide quarters for all departments of the city government and its officials, and besides the library will contain an auditorium. The instructions which Mr. Priest has received call for brick construction with plaster exterior.

Mr. Priest is also making plans for a two-story Colonial residence which Arthur P. Care is planning to build on the Atwater tract near Brand boulevard just over the Glendale line. It will be of redwood construction and staff trim with concrete foundation, brick porches, hardwood floors, enameled woodwork, leaded glass windows, etc. It will contain nine rooms. The commission also includes plans for garage.

Another job for which Mr. Priest is preparing working plans is the remodeling of the candy store of Peter Alexakis of Santa Paula. This calls for a new plate-glass and metal front, tile and cement entrance, and a one-story brick addition in the rear.

ANOTHER BURGLARY

HOME OF MR. AND MRS. MATTISON B. JONES RANSACKED BY THIEVES

Mr. and Mrs. Mattison B. Jones arrived Friday night after touring the east for several weeks and on entering their home on North Orange street found it had been ransacked by burglars. Everything had been carefully searched, even trunks, which had been stowed away and unopened for years. As Mr. and Mrs Jones had taken the precaution to remove all portable articles of value in the way of silver, jewelry, etc., the thieves found little to reward their efforts save a few trinkets taken from the room of Miss Winifred Jones. The most serious damage sustained was the wanton mutilation of a handsome chiffonier in which a drawer stuck. Supposing that it was locked and that it might contain valuables the burglars made use of the big jimmy with which they had effected an entrance by prying open a screen and window, and with this rude tool gouged out a great chunk of the mahogany. Mr. and Mrs. Jones had a pleasant and successful trip about which they will be glad to tell their friends when they get rested from the journey. It is supposed that the burglary took place Thursday night though the time is not known with any certainty.

REV. AND MRS. C. R. NORTON RETURN

Rev. and Mrs. C. R. Norton, of 801 East Wilson avenue, arrived from the east Friday night and report a most delightful trip all the way around. They left Glendale early in September bound for the National G. A. R. Encampment at Columbus, Ohio, and after attending the sessions there spent the balance of the time visiting friends and relatives. On the 14th of September Mr. Norton preached in a church within half a mile of his birthplace in Marietta, Ohio. He had not visited there since 1880 and was greatly impressed by the change that time has wrought. It is hard to describe, he says, because it is all along the line and takes the form of better buildings, better roads, better livestock and better living conditions generally. As to the cost of living, he says it is about the same there as here. After leaving Ohio they visited friends in Iowa, Missouri and Kansas.

FATHER WORKED, TOO

The proprietors, book-keepers and all others connected with the Bentley-Schoeneman Lumber Company, worked like nailers last evening moving their furniture and books from the office they had occupied for many years into the adjoining room which has been fixed up in a very suitable manner for the growing business of this enterprising company. This was not an instance of "Everybody works but father," because father set a pace for the whole crowd last night.

WEATHER FORECAST: Fair tonight and Sunday. No important change in temperatures.

TWELVE TO SIX

GLENDALE FOOTBALL PLAYERS WIN TWO TO ONE IN LEAGUE GAME AT ALHAMBRA

The football team of Glendale High returned from Alhambra Friday night singing the song of victory. Attendant upon them were about fifty automobiles filled with fellow students who had also journeyed to that city to cheer the players and who were glad to join in the chorus of rejoicing, for the score was 6 to 12 in favor of Glendale. The success was chiefly due to good team work on the part of the Glendale players and to the sensational play of Captain Wilde in boosting the pigskin over from the forty-yard line. Also the fine backing of the school helped, for, as stated above, about fifty auto loads of Glendale rooters were there. As a matter of fact they outnumbered the Alhambra rooters three to one and that may be one reason for the defeat suffered by the team there. Glendale boys declare they deserved to lose because of their unsportsmanlike conduct in plowing up their field two days before the game making it "mushy" in the expectation of slowing down the game of the Jewel City boys. It failed to work, however, and the Glendale players are very contemptuous of such tactics.

DEFENDING MILK ADVANCE

Advertisements in the Glendale Evening News and elsewhere have warned the public of a fresh advance in the price of milk which will be effective November 1st. Dealers are explaining the rise as due to pressure upon them caused by the increased cost of feed, of labor, bottles, caps and all the other factors that enter into the cost of production and delivery. They say, too, that the rise in the value of cream has been proportionate with the rise in the price of butter and they can no longer afford to sell whole milk at the price they have been getting. Finally they declare that considering its food value as shown by government analyses the price of milk is low when compared with quotations of other staples of corresponding food value.

FUN AT PHILLIPS HOME

There was no lack of fun at the Hallowe'en party given at the home of Mary and Margery Phillips, daughters of Mr. and Mrs. R. A. Jay Phillips at 363 Ivy street Friday night. It was a costume affair and the youngsters enjoyed it to the full playing games and performing stunts of various sorts, after which refreshments of cider, apples, doughnuts, etc., were served by Mrs. Phillips. Those present besides the young hostesses were: Spencer and Madeline Bellue, Stella and Clara Roberts, Walter and Homer Roberts, Edward Childs, John and Joseph Franklin, Virginia Hanger, Marian and Dorothy Hosking, Beatrice and Minnie Murchison, Nyla Chapman and Joy Willisford.

OLD TIME SPORTS

MEMBERS OF LUTHERAN CHRISTIAN ENDEAVOR ENTERTAINED BY MISS HAND

Young people of the Lutheran Church were entertained with a jolly Hallowe'en party at the home of Miss Mary Louise Hand, the whistler, at 354 West Salem street Friday night.

A real Hallowe'en setting for the function was provided with pumpkin jack-o'-lanterns, cornstalks, popcorn festoons and other out-of-door things suggestive of the season, not to omit flowers with which the home was beautifully decorated.

About thirty-six members of the Christian Endeavor including Fred Bowman, president, and Elizabeth Mottern, secretary, were present and participated with enthusiasm in the games which were sufficiently varied to entertain everybody. One of the diversions was the "Traveler's Quick Change," which called for rapid work in exchanging one costume for another. Alfred Bowman and Martha Gysin won first prizes in that contest. Two teams were organized for a pillowslip race. Mr. Daugherty was captain of one, Mrs. Fred Huffman of the other and the lady captain and her team carried off the pennant.

Rev. Mottern distinguished himself by winning first place in the peanut race.

No formal program had been arranged but some highly entertaining stunts in legerdemain were performed by Fred Huffman, and there was phonograph music throughout the evening.

Refreshments of ice-cream and cake were served at tables gay with Hallowe'en colors and favors at the close of the evening.

GLENDALE, CALIFORNIA, SATURDAY, NOVEMBER 1, 1919

BATTERY ORDERED FROM IOWA TO OHIO

(Special Service to Glendale Evening News)

DES MOINES, Ia., Nov. 1.—A battery of the Second Infantry was ordered today from Camp Dodge to Camp Sherman, Ohio, with instructions to report not later than Wednesday of next week.

ANNOUNCEMENTS

CHARGE FOR ANNOUNCEMENTS

The Glendale Evening News will charge for all announcements ordered published in its columns. Notices of clubs, schools, churches, society committees and business concerns will be comprised in the class of pay announcements.

The charge will be 50 cents minimum for eight lines, heading counted as two lines, six words to the line. Additional lines, five cents per line, all payable in advance when organization seeking publicity has not arranged for monthly settlement of accounts.

HALLOWE'EN DANCE

A Hallowe'en dance will be given tonight, Saturday, November 1st, at the Elks' Club House. There will be the regular Blondie Clark orchestra and entertainment. The attendance will be limited to Elks and their ladies.

ENTERTAINMENT COMMITTEE.

Hallowe'en Yama Yama Dance, Victory Hall, Burbank, Saturday, November 1. Plenty of confetti, horns and rattles furnished free. Gentlemen $1.00; ladies free. Prizes for best costumes.

MEMBERSHIP DRIVE

The Red Cross is to carry on a drive for membership during the period between November 2nd and 11th and every person in Glendale is urged to enroll. The work of this organization during the recent war is so well known that it is not necessary to dwell upon its value. We should all be proud to be on the same list with those efforts which helped our boys so materially during the war.

FIRST BAPTIST CHURCH

Ernest E. Ford, pastor. 9:30 Sunday School. Roy L. Kent, Superintendent. 11:00 public worship. Sermon theme: "A Mutual Surrender." 6:30 Young People's meeting, Faith Tarling, leader. 7:30 evening worship. Sermon theme: "Building Life Towers." Communion and reception of new members at close of morning service.

CONGREGATIONAL CHURCH

Central and Wilson. 9:45 a. m. Sunday School. 11:00 a. m. Communion service. Sermon theme: "God as Our Shepherd." 6:30 p. m. Young People's meeting. 7:30 p. m. Introductory song service. Sermon topic: "Don't Fletcherize Your Quinine." Intensely interesting, exceedingly suggestive.

NEW THOUGHT CENTER

Masonic Temple. 11 a. m. Dr. Frank L. Riley, speaker. Subject: "Healing the Result of Spiritual Illumination." The New Thought doctrine is based upon the teaching of our Divine leader, Jesus, the Christ, and on the inspired books of the Bible. Sunday School at 9:45. Classes for all ages.

GLENDALE LIBERAL CLUB

Masonic Temple, Sunday, Nov. 2d, 8 p. m. Lecture by Edward Adams Cantrell. Subject: "The Logbook of Barbarism." You should not miss this lecture. It is another one of Mr. Cantrell's good ones and will give you more historical facts in one hour than may be ordinarily gained in years of reading. Everyone welcome. Admission free.

CENTRAL CHRISTIAN CHURCH

Mrs. R. M. Jackson will give a report of the International Convention held last month in Cincinnati, at the morning hour. Evening topic: "Buying Love." Special music at both services.

PRESBYTERIAN CHURCH

Walter E. Edmonds, pastor. Regular services morning and evening. Morning worship 11 o'clock. Rev. Warren D. More, D. D., of San Francisco, will preach. Subject: "Where Dreams Come True." Dr. More is one of the strongest pulpit men on the Pacific Coast, and should be heard by a large number. Evening service 7:30. Dr. More will give a very interesting stereopticon address, which will be of special interest to young people. Sabbath School 9:30. See special ad regarding the Men's Class under the leadership of Dr. Stillion. C. E. meetings at the usual hours, 3, 6 and 6:30.

CATHOLIC CHURCH

Mass at 8 and 10:30. Sunday School at 9 a. m. Sermon in English at 10:30 service. Doors open for all.

REV. JAMES S. O'NEILL, Pastor.

CHRISTIAN SCIENCE CHURCH

First Church of Christ, Scientist, corner Maryland and California avenues. Services Sunday at 11 a. m. The lesson sermon is from the Christian Science Quarterly Bible Lessons. Subject Sunday, Nov. 2d, "Everlasting Punishment." Sunday School at 9:30 a. m. Wednesday evening testimony meeting at 8. Reading room, 135 S. Brand Blvd., open daily except Sundays and holidays from 12 to 5 p. m. Also every Tuesday, Thursday and Saturday evening from 7 until 9.

PUBLIC ANNOUNCEMENT

We wish to announce to the public that we have taken over the distribution of **Moreland Trucks** for the entire San Fernando Valley and are prepared to make immediate delivery on any model. The **Moreland** is strictly a California made truck, designed and built to meet California climatic and road conditions. The new home of the **Moreland** being erected in Burbank will make it especially convenient for users to get parts or factory adjustments. **Moreland Trucks** are built in four models, viz: 1½, 2½, 4 and 5 ton, with bodies specially built to meet the requirements of all motor truck users.

The **Moreland Motor Truck Company** started its manufacturing career eight years ago, fully determined to design and build a truck that would successfully operate under all the varied conditions to be found in California. Since that time it has pioneered many of the present-day essentials to proper truck construction and operation. No other truck equals the **Moreland** for Western use, because Western needs were thoroughly understood before any designs were completed.

We are glad to announce that these trucks will be on display at our show-rooms in **Glendale, Burbank,** and **San Fernando,** and that we are ready at all times to make practical demonstrations.

BIG BUSINESS

PACKER & WHITE LOOKING FOR IT IN CONNECTION WITH MORELAND TRUCKS

Now that Packer & White have thoroughly organized to do big things they are going out after big business and are confident of getting it since they have been made distributors of the Moreland truck for the entire San Fernando Valley. All members of the staff are happy and confident over the situation because "Moreland" is a name to conjure with. Did it not make good in the greatest war of history and meet such a test as could never have been imagined by the most exacting investigators?

In explaining its qualities Packer & White recite its history and go back to the days before the great war when the government had occasion to send trucks across the border into Mexico with expeditionary forces and those trucks were found wanting, and how a conference of motor truck manufacturers was called to suggest ways and means of remedying defects and providing the government with an army truck that would meet stiff requirements. And the manufacturers came together and cheerfully threw all the best points of their varied products into the melting pot and the Liberty truck without which the world war would not have been won, was the result. It has been pronounced the best military truck in existence.

The Moreland Motor Truck Company has been the first to make for commercial purposes the powerful Liberty Class B truck. During the war many of its Model 19-G trucks which had been manufactured for commercial purposes in the west, were purchased by the government and gave a good account of themselves both on this side of the water and in France. It therefore has no misgivings about its present product or any embarrassment in recommending it to the limit to patrons. Knowing all this Packer & White and their assistants feel very cheerful over the prospects for business in the splendid field they have secured. They have a truck everybody knows because its headquarters are at our gateway in Los Angeles, and its big factory is now going up almost on the boundary between Glendale and Burbank. These things alone arouse interest and the performance of the truck does the rest.

Mileage and Dollars

The longer your tires and tubes last, the more dollars you save and the more money you have to put into new tires and tubes. Our vulcanizing process, up to date in every particular, will bring about this desirable economy for you, will add long life to your tires, and will make your car ride easier.

AUTHORIZED SERVICE STATION
GATES HALF-SOLE TIRES

WEAR AND TEAR ON TIRES

Twenty-eight million tires yearly are necessary to equip the passenger and motor trucks in use in the United States. To this should be added not less than twelve million more tires, for many vehicles accumulate mileage to such an extent that a second set of shoes is necessary, to say nothing of the thousands of inner tubes.

"Forty million tires and their inner tubes at an average cost of $25 gives a total tire bill of one billion dollars—a fairly tidy annual expenditure for road travel and transportation. Hence it is high time to pay a little more attention to the effect of the various road surfaces on the motor vehicle instead of considering only the damage by the motor vehicle to the road," says M. O. Eldridge, director of roads of the American Automobile Association.

"You can scarcely pick up a paper without seeing in it something about how and why the fast moving passenger car and the loaded motor truck damage the road, and as you read on you note how the writer proposes to design a highway to withstand these effects, and how speed and weights should be limited, and how the cost burden should be distributed.

"Few of those who discuss transportation questions give thought to the fact that our seven million motor cars, which require annually twenty-eight million tires, exclusive of renewals, create a problem, namely: How fast will these tires wear out on each type of road surface? Compare, for instance, the smooth resilience of some city streets with the rough, gritty and flinty surfaces so often encountered on country roads, and try to imagine what a tidy sum in tire bills would be saved if we could all travel on avenue surfaces. The saving in tire costs alone would pay the difference in construction cost in many instances."

GERMAN PRESS STILL MUZZLED

BERLIN.—Germany still has a muzzle—or perhaps halter is the better word—on her press.

German authorities resent such a claim, and the press probably won't admit it, but nevertheless it is a fact. There is no censorship in the strict sense of the word, but the newspapers print practically what they are permitted to say—and no more. If a paper gets beyond the bounds of what the German government regards as propriety either in its news or editorials, Noske quickly attends to the case of that publication.

So, perhaps, it is small wonder that the press heeds the halter, and behaves properly.

And the government still clings to the old institutions. The Allgemeine Zeitung which used to be the official mouthpiece of the Kaiser regime is still purveyor of inspired news for the government. The government still clings to the Wolff telegraph bureau as its distributor of official and inspired tidings, giving it preference over other agencies and individuals. In fairness, be it said, that a few men connected with the government, who have had experience with American journalism have striven to divorce the government and the press—to play fairly with everybody and to avoid the official "doctoring" of news.

Save Motor Oil

Does your motor use too much oil? Has it lost its power? Does it use too much gas? If so, have your cylinders reground and new pistons and rings fitted; it makes a new motor. We do this work at reasonable prices and do not lay up your car but a few days.

Our shop is now organized so we can turn out work promptly and in first-class condition. None but skilled workmen employed.

Armstrong & Leeds

Brand at Harvard St.
(Bartlett & French Building)

But their views go for naught. Germany has shaken off many of the old institutions, but there are a few lessons she has failed to learn,-

The New Motor Car

Overland

TRADE MARK REG.

The Greatest Improvement In Riding Comfort Since The Introduction of Pneumatic Tires

HERE is a brand *new* type of car. It solves the problem which has baffled automotive engineers—how to combine riding *comfort* with *light weight* and *economy.*

Our new *Three-Point* Cantilever Springs make this possible.

These are the *first* springs of their kind and they are made of chrome vanadium steel. They are exclusive with Overland.

Because of these springs, Overland 4 *combines* the riding qualities of large heavy, expensive, long wheelbase cars, *together* with the advantages and economy of small light cars.

With 100-inch wheelbase, Overland 4 has the luxurious riding ease of 130-inch Springbase.

The exclusive, Three-Point Cantilever Springs cushion the car so that it *rides well on all roads:* they reduce choppy rebounds and side swaying, protect the car from road shocks and *prolong* its life, minimize twisting or racking of frame and body, enable the car to hold the road better.

The car and passengers ride smoothly as though floating, free from road shocks that the *springs ward off.*

But this *new* riding comfort, possible *only* with these Three-Point Cantilever Springs, is but one of the advantages of Overland 4.

Its light weight makes possible great economy of *gasoline* and *tires.*

High quality materials insure durability. All vital parts of the front axle and steering gear and all highly stressed gears and shafts for driving the car are made of *alloy steel.*

The equipment list of Overland 4 is high grade, including Auto-Lite Starter and Lighting System—Electric Horn—Marshall Divan Upholstery Springs—Demountable Rims—Three Speed Transmission—Slanting Rain Vision Windshield—Tillotson Carburetor—U. S. L. Batteries and many other high quality conveniences.

In every respect Overland 4 is a quality car. The body is all steel, all enamel, the brightest, hardest, most lasting finish.

Overland 4 has been tested for two years and more than 250,000 miles over the Rocky Mountains, prairies, through deep mud and scorching deserts—through quick sharp climatic changes. As a result of these tests we were able to judge the car's performance under every condition and to perfect it before offering it to the public.

There is no previous car of any size or price to adequately compare with the character of service Overland 4 introduces.

The farther you *ride in it* the more you will appreciate it. Come in, see the car and ask for booklet. The demand will be greater than the supply for a long time.

Overland 4 Touring, $845; Roadster, $845; Coupe, $1325; Sedan, $1375. Prices f. o. b. Toledo.

Ford

THE UNIVERSAL CAR

During all the years the Ford Model T One Ton Truck has been on the market, we have never had one complaint of rear axle trouble. We have had no complaints of motor trouble. As the motor and the rear axle are the vital fundamentals in a motor truck, we have the right to conclude that the Ford One Ton Truck has not only met the demands of business, but has done so in a satisfactory and economic way. There is no other evidence so convincing as that which comes from long practical experience. Ford One Ton Trucks are serving along all industrial and commercial lines. You will find them everywhere. If these statements were not facts, the demand for the Ford One Ton Truck would not be as large as it is, because people are not buying trucks which do not give service. Coupled with the dependability of the Ford One Ton Truck in all classes of usage, comes the economy in operation and maintenance. On the farm, in factory delivery, for the merchant, manufacturer, and contractor, in these days of modern business methods, this worm-drive One Ton Ford Truck has become an actual necessity. Leave your orders with any of the Authorized Dealers mentioned below, and you will be assured of prompt attention.

TRULY THE UNIVERSAL CAR

It has been found by Ford car owners that it is not entirely the looks of a car that adds to the pleasure of an auto trip. The car that will go any place that cars can go is the Ford. If you doubt this just take a hunting trip with Jesse Smith, of the Glendale Ford Agency, when he drives a Ford and he always drives one on such occasions because he can go just where he wants to go whether it be on mountain or desert.

OREGON MEETS CALIFORNIA

(By United Press)

BERKELEY, Cal., Nov. 1.—The first chance for the football dopesters to get a comparison of the relative strength of Stanford and California on the football field, will be offered today when eleven huskies from Oregon Agricultural College tackle the Bears on the Berkeley gridiron. The Aggies were defeated by Stanford last Saturday, 14 to 9, but the northerners were handicapped by the loss of Captain Reardon and Lodell, halfback.

Benefits should result to Southern California from a contract secured by the Southwestern Shipbuilding Company from the Emergency Fleet Corporation to build ten freight steamships at a cost of $20,000,000 at its plant at Los Angeles Harbor, the vessels to be operated by the Boston-Pacific Company between Seattle and Boston with ports of call at New York, Los Angeles, San Francisco and Portland.

SAN FRANCISCO, Cal., Nov. 1.—The western football season is on in full swing today, although only a few important games are being played. At Berkeley the Blue and Gold is entertaining Oregon Agricultural College. At Palo Alto, the Cardinal is meeting St. Mary's.

Washington State College will have an easy time at Idaho. Washington plays Oregon at Seattle. Occidental tackles U. S. C. at Los Angeles while Pomona will play Whittier.

Montana is to play Whitman at Missoula. The Montana Aggies have traveled to Salt Lake City to meet Utah.

Santa Clara will play the Olympic Club here tomorrow.

NINE-YEAR-OLD PRODIGY COMING TO U. S.

(By United Press)

RIO DE JANEIRO.—Maria Antonio, the nine-year-old daughter of Senhor and Senhora Vital Ramos de Castro, and Brazil's second infant musical prodigy, is going to the United States to give a series of concerts and to complete her musical education in that country.

Since the time of Senhorita Guimar Novaes, whose remarkable pianistic abilities won international fame and whose talent roused the wonder and admiration of hundreds of thousands of music lovers in the United States, Brazil has not produced a musical genius equal to that now displayed by Maria Antonio de Castro.

Maria Antonio, in spite of her short nine years of life, has accumulated the outspoken praise and eulogy of the music critics not only of Brazil but also of Argentina and Uruguay. Her reputation has already reached Europe and she has received many invitations from that continent to develop her talent in the most famous conservatories of the world.

At the advice of her "Maestre" Alfredo Oswald, however, her father is taking her to the United States whose musical circles are reported to be equipped with unusual facilities while war-torn Europe has ceased to be the mecca and shrine of musicians.

GOVERNOR'S PROCLAMATION

(By United Press)

Governor Stephens today issued a proclamation asking state-wide participation in the Red Cross drive which opens tomorrow. The proclamation reads:

"During the period between November 2nd and 11th, the Red Cross is to carry on a drive to increase its membership. The work of the Red Cross became so well known to all of us during the recent world war that I feel I need not dwell upon its inestimable value.

"Every citizen of our state should feel proud to be on the same list with those whose efforts, through this splendid organization, helped our boys so materially during the war. Many a khaki-clad American had good reason to bless the Red Cross and they will appreciate the service of those who lend time and effort to its continuous welfare.

"I urge upon each and every citizen, the desirability of enrolling in the Red Cross."

INTERESTING STUNTS

M. D. BURKE SATISFIES DOUBTING THOMAS BY FINE PERFORMANCES WITH OVERLAND

M. D. Burke, of this city, who is associated with E. J. Jackson in the Overland Agency, had an interesting experience Thursday. An Eagle Rock prospect, a Mr. Viese, whose home occupies quite an elevated situation, was skeptical about the climbing capacity of the car and also wanted "to be shown" in regard to the easy-riding qualities claimed for it. Mr. Burke therefore drove to Eagle Rock and there picked up Mr. Viese and Mr. Sorborn, who represents his agency there, for a ride across the unprotected car tracks of the electric line; but he first made a wager with Mr. Viese that they could make the passage at the rate of twenty-five miles an nour without jolting them off the seat. Mr. Burke won out on the proposition and then tackled the 200-foot incline which forms the approach to the Viese residence. Starting at the bottom on second he progressed to the top without altering the speed, making a complete stop on the way and starting again. Mr. Viese was so thoroughly convinced that he sent in his order Friday.

"The Overland people claim," says Mr. Burke, "they can give all the advantages of the large car inasmuch as the springs with the three-point suspension make the light car as easy riding as the large and expensive automobiles.

Mr. Burke also made a very pleasant demonstration to Mr. Viese of the fact that he could remove all the upholstery of his car with ease in a few moments. It is a point of special interest to the buyer because every two months he makes a business trip to the Imperial Valley and wishes to use his car for camping purposes. He was also pleased to know that two hundred pounds can be piled on the cushions without injuring them.

Mr. Burke also says he will be glad to take any doubting Thomas as a passenger in an Overland car over any road he may select, corduroy or metal rails and prove that his claims can be demonstrated.

CUTTING CORNERS

SERIOUS ACCIDENTS HAVE RESULTED FROM CUTTING CORNERS: LAW TO BE ENFORCED

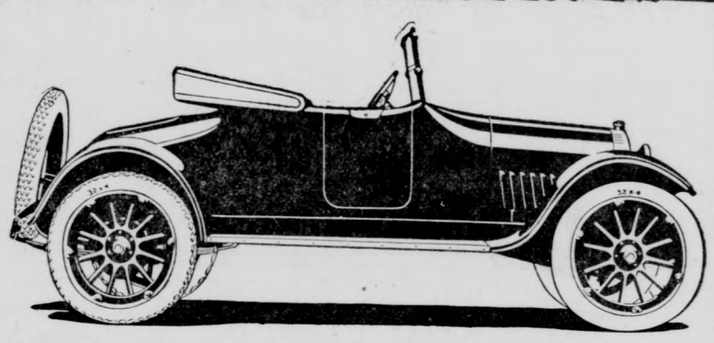
There will be no more "cutting of corners" on country roads by motorists in Southern California, according to a warning sent out by traffic officers throughout the southern part of the state.

Many and serious accidents have resulted from carelessness in this respect even on rural highways, says the Automobile Club of Southern California, and that organization is now co-operating with the various sheriffs' offices in trying to curb the practice and to enforce the Motor Vehicle Act, which provides for just such a contingency.

Practically every city in the state maintains a special clause in an ordinance against corner cutting, it is pointed out, but motorists have developed the impression that when in the country they can slew recklessly around corners to their heart's content.

No longer will this be countenanced by traffic officers and motorcycle cops, warns the Auto Club, and arrests will follow wherever a driver is found not making a well-rounded turn at a highway intersection. There is now a state law to this effect.

On the other hand, there is a warning issued for urban motorists by the Club in regard to lighting tail lights after coming out of a theater or other place of amusement at night. Many motorists forget that they have shut their lights off when leaving the car, and fail to light them again, thus laying themselves open to arrest.



PREFERRED FOR ITS SERVICE AND ITS THRIFT

While the Oakland Sensible Six is moderately priced, this able and economical car cannot be put in any definite price class.

There are, for example, many Oakland owners who could well afford a more expensive automobile had their good judgment prompted the purchase of a costlier car.

They selected the Oakland Sensible Six because of the unfailing service that it renders and the constant savings in operating costs that it effects.

How practical and satisfactory is the lightweight principle of construction, as pioneered and developed in the Oakland Sensible Six is best evidenced by the fact that Oakland owners regularly report returns of from 18 to 25 miles from the gallon of gasoline and from 8,000 to12,000 miles on tires.

POST WAR WORK

OVERLAND FACTORIES AT TOLEDO EFFICIENTLY REORGANIZED FOR MODEL NO. 4

A fine example of efficiency and conversion from war work to prewar production was afforded by the Willys-Overland Company of Toledo. Its No. 4 model which was designed two years ago could not be manufactured while the war was in progress, yet in August of this year, nine months after the armistice had been signed, the car was in production. Under ordinary circumstances a year is required for an auto company to turn out a new model. Officials state that production of the Overland 4 already exceeds 300 per day. Another new product of the company is the Willys-Knight model. These two differ from any other cars previously manufactured by the company and for that reason the parts which entered into earlier models could not be used. The foundation had to be laid from the ground up and that meant eight thousand special dies and tools to be designed, built and installed at the Toledo plant for the Overland 4 alone. It was some job, but it was accomplished under the tremendous difficulties which beset all manufacturers in the reconstruction period between November, 1918, and August, 1919, when they were faced by a shortage of materials, rising prices and new conditions in the labor market. The organization is now perfected and ten thousand men are now at work building these popular cars.

THE HOUSING PROBLEM ELSEWHERE

To relieve congestion in Pasadena the housing commission of that city is considering plans for bungalow courts containing houses to cost from $1200 to $1800 each.

To obviate a situation resulting from a shortage of houses in Pomona, a group of business men of that city have been persuaded to unite in a syndicate that will build houses. The aim is to form a syndicate having one hundred members, each of whom will subscribe $100 and thus provide the capital necessary to build houses which can be sold at a moderate price.

COMING TO CALIFORNIA

AUTOMOBILES BY THE HUNDRED ARE NOW EN ROUTE FROM THE EAST TO CALIFORNIA

That at the present moment there are more than 1500 automobiles bound for Southern California over the transcontinental routes leading here is the official information just issued by the touring bureau of the Automobile Club of Southern California.

There are this many en route now between the Pacific Coast and the east, and the number is being increased by hundreds more every day, says the communique. This statement is based upon actual figures supplied by Automobile Club representatives along the highways over which the mobs are coming, and by an individual count taken between Barstow and Needles over the National Old Trails Highway.

Automobile Club officials traveling toward the Grand Canyon counted 109 "out of the state" cars and 22 machines with California license plates within 160 miles. Garages and parking spaces along the route were all filled to overflowing with those bound for the boulevards of Southern California.

It is the greatest westward trek in history. The view from the top of a hill looking across the desert, according to the Club officers, was like looking down on the old-time caravans, so thick were the cars. Groups of machines from the same state travel together.

Cars representing twenty-six states were discovered between Barstow and Needles. Many hundreds of automobiles are reaching this part of the state also over the Lincoln Highway and the southern routes, swelling the 1500 to an almost even 2000 now actually on the roads.

All visiting motoring parties arriving here are advised to call at the Auto Club Branch Offices for visiting license information on road conditions. The Club, it is pointed out, serves as host to all comers.

TELEGRAPHIC BARRAGE

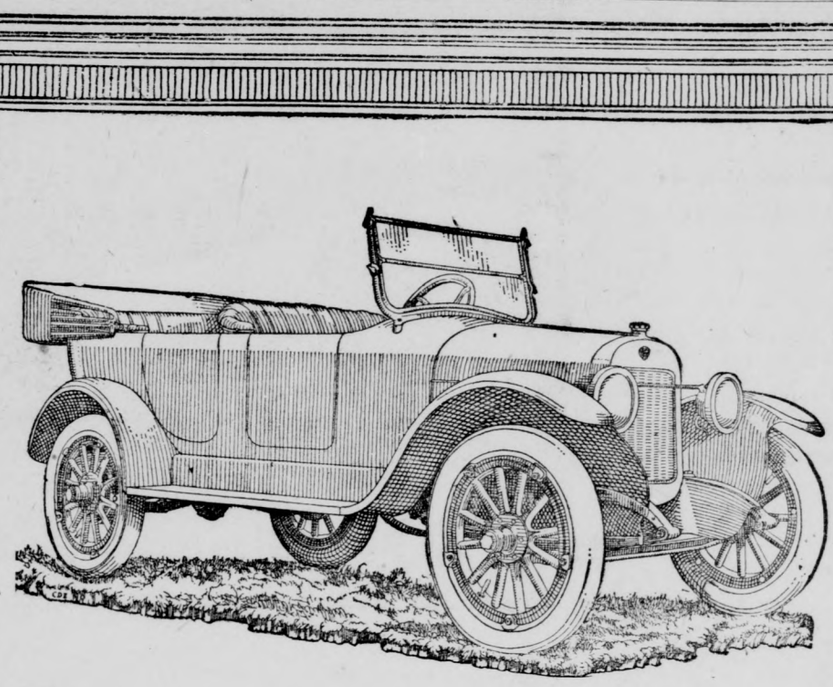
THE THEFT BUREAU OF THE AUTOMOBILE CLUB USE TELEGRAPHIC BARRAGE

Threads of wire stretching from Southern California across neighboring states have proved more efficacious than some of the wiliest theft preventatives in existence when it comes to curbing the activities of auto stealers in this part of the state, and the telegraphic bombs dropped onto the highways by means of wires from the Theft Bureau of the Automobile Club of Southern California have already brought some important criminals recently to justice.

Not in one case but in several has the "telegraphic barrage" cut short the merry whirl of a motor thief from Southern California to neighboring territories. However, the latest, and one of the best cases in point, is that of one Charles Barton, who stole an automobile in front of a popular dance hall in Los Angeles.

In the words of his subsequent confession, young Barton "drove around the city for a while" after stealing the car, then obeying an unexplained impulse he wheeled to San Diego. About this time, in a very few hours as a matter of fact, the Automobile Club's Theft Bureau was dropping its deadly and stifling barrage ahead of the fleeing Barton, whose route by this time had become complete. From San Diego he proceeded toward Phoenix, Arizona, by way of Yuma and Agua Caliente, the literal translation of the latter being "hot water." He got into hot water at Phoenix.

Detective Bush Anderson of that city, while walking on the street, telegraphic description of Barton in hand, spied the agile young self-confessed thief as he was bowling merrily to the marts of trade, and his arrest followed. In that way the car was secured for the owner in Los Angeles, and another check put on a budding criminal record. Car owners, therefore, who find that their automobile has been stolen, are asked by the Theft Bureau to notify the Club at once so that the "barrage" may be dropped onto all possible routes of exit from this part of the state.



Maxwell

More miles per gallon
More miles on tires

300,000 Maxwell Owners Will O.K. This Car

FOR this Post-War Maxwell contains all those fine traits of its 300,000 predecessors.

And in addition the great developments in engine, axle and chassis which the war brought.

But these 300,000 will vouch for its ability, for they have seen their own cars pile up endless mileage, outrun a guarantee on a tire, shy at the repair shop, and go where most other cars wouldn't follow.

They know, too, how thrifty it will prove on gas, how it will please both Son and Grandma in performance and comfort.

To say that they will O. K. this car is wasting words, for it is of the very same chassis model as the 300,000 others.

It's worth an hour of any man's time to look over the Post-War features, note what fine engineering has accomplished, and observe what big improvements have been made in appearance.

STATE SHOW

(By United Press)

SAN FRANCISCO, Nov. 1.—The California International Live Stock Show opened its doors today at the California Building in the Panama-Pacific Exposition grounds with over one thousand animals being shown, besides several thousand rabbits and poultry. All the products and appliances of modern stock and dairy farming are being shown.

The show was officially opened this afternoon when William T. Sesnon, president of the show, and Gordon True, manager, addressed the stock men. The opening exercises were held in the tanbark ring in which the stock will be judged and where the nightly horse show will take place.

San Francisco is endeavoring to do her share toward advancing the interests of pure bred livestock production in the West, declared Sesnon, who besides being a prominent stock raiser is heading the business men backing the show. He said that the show ring is the best meeting place where breeders can prove up on their efforts to grow better animals.

Tilly Alcartra, the world's champion milk cow, and California Gretel, world's record milk goat art attracting a great deal of interest.

The horse show has three world-famous horses, Uhlan, the trotting champion exhibited by C. K. G. Billings of Santa Barbara, Friar Rock and Disguise, two famous runners from the stables of J. H. Rossiter of Santa Rosa.

The show will be featured by conventions of the live stock and poultry organizations, which began today with the meeting of the Milk Goat Breeders' Association. On Wednesday the California Cattlemen's Association will begin a three-day session.

Personals

Boys on the athletic teams of Glendale High expect to start basket ball and track work in about two weeks.

Miss Clara Goudie, Mrs. Robert C. Goudie, Sr., and her father, John Crawford Goss, were luncheon guests of Miss Betty Compson of Hollywood, Wednesday. Miss Compson is the star in "The Miracle Man."

Rev. O. F. Thayer has been appointed to supply the Casa Verdugo M. E. Church and will take up his new duties on November 2nd. He is at present living at Eagle Rock. Mr. Thayer fills the vacancy caused by the resignation of Rev. Julius E. Soper.

Miss Mildred McKee and her cousin, Margery Gunion, entertained young people of the Intermediate and the High School Friday evening with games and dancing at the McKee home on East Windsor. Needless to say they had a jolly evening in a Hallowe'en setting.

Mr. and Mrs. W. E. Evans of 333 North Orange street have had much pleasure this week in the entertainment of Craig Carrier of San Francisco. Friday evening he was their guest at an elaborate Hallowe'en dance at Hotel Alexandria, Los Angeles, the party also including Mr. and Mrs. Lorin Myers and Mr. and Mrs. L. A. Phillips.

About forty-two young people of the Christian Endeavor of the Glendale Presbyterian Church were entertained Friday night at the home of Mrs. J. W. Cooper at 119 North Cedar street. It was, of course, a Hallowe'en frolic with the usual games and with refreshments of cocoa and pumpkin pies, and in a very pretty decorative setting in yellow and black colors.

The commission recently bestowed upon Architect Arthur G. Lindley of this city for plans for a new "Friends" Church to be built at Bell, call for a building 56 by 75 feet with plaster exterior, pine trim, veneered floors and to contain a main auditorium with a gallery Sunday School and class rooms, a social hall and lavatories. The estimated cost is $15,000.

Messrs. W. A. Webber and Samuel Parker of the California Apartments were delighted to receive a call recently from Mr. and Mrs. Clyde Errett, 1716 West Adams street, Los Angeles, and formerly of Chicago. Mrs. Errett and her father's family and Messrs. Parker and Webber were closely associated in the same church for over twenty years in Chicago and spent a couple of hours in talking over old times and acquaintances. Everyone knows how pleasant such occasions are and wishes they occurred oftener.

Representatives of organizations interested in the Welfare Council which has just been organized are arranging for a drive for used clothing to be carried on through the schools. The cold weather of the past week has stimulated the effort to provide against the demand that will soon develop for clothing of all sorts. The new store which the Council has secured on Glendale avenue will not be open for distribution of clothing until the week beginning November 10th.

A small group of friends of Graham and Elizabeth Young were delightfully entertained Friday evening at the Young home at 325 Milford street. The guest list included Jean and Dick Tyrrill, Dewey and Martha McCourt, Nathan Finch, Allen Lovell and Dorothy Thompson. Various Hallowe'en games were played and prizes given. In the contest for pinning the face on the witch Martha McCourt and Nathan Finch won first place, the booby prizes going to Dorothy Thompson and Dick Tyrrill. Refreshments appropriate to the occasion were served at the close of the evening.

MASONIC NOTICE

The stated meeting of Unity Lodge, No. 368, F. and A. M., will be held Tuesday, Nov. 4th, at 7:30 p. m. The Jinnistan Grotto Entertainers of Los Angeles will be present.

A. W. TOWER, Sec.

Glendale Has Plenty of Pure Water

But the Distributing Facilities Will Fail to Meet the Demands Made Upon Them by the Growth of the City Unless Extensions and Improvements are Made at Once

Amount of Bonds	$260,000.00
To be expended as follows:	
Pumps	$ 36,500.00
Reservoirs	48,000.00
Pipe lines	123,050.00
Wells	32,000.00
Additional Gravity Shares	10,000.00
Hydro Electric Plant	10,000.00
Bonding Capacity of Glendale	$1,200,000.00
Bonds Outstanding	494,250.00
Remaining Bonding Capacity	705,750.00

Responsibility in this matter rests equally upon the shoulders of the citizens and the city officials.

Voters of Glendale, this is a real crisis. If we are to keep our rightful place among other municipalities we can not trifle with such vital questions as water distribution. We must have this money sooner or later.

Why Not Vote in Favor of The Bonds November 12?

A Great Shrinkage

Do you realize that the Insurance Protection you obtained for your family a few years ago has shrunk at least 50%, measured by its present and future purchasing power? The $10,000 policy which would yield $50 to $60 a month—enough to keep the wolf from the door when living was cheap and rent low, would be a sorry pittance for them in these latter days.

If you will supplement that contract by a "$100-a-month income policy" in the Provident will give you a feeling of comfort and of a well performed duty which can come to you in no other way. "THERE IS NO SUBSTITUTE."

MASK AND COSTUME DANCE

One of the prettiest, most elaborate of the many Hallowe'en functions which took place in Glendale Friday night was a mask and costume dancing party given by Mr. and Mrs. D. Ripley Jackson, of 214 East Elk St., for their son and daughter, Kenneth and Grace Jackson. Guests entered into the spirit of the occasion with great zest and a marvelous variety of make-ups appeared including characters as diverse as Uncle Sam and Captain Kidd, the pirate. The spacious Jackson home was beautifully decorated in the Hallowe'en colors and symbols, and appropriate refreshments were served at the close of the dance for which excellent victrola and piano music was provided. Those present besides the host and hostess were: Marie Oliver, Agnes Carroll, Esther Ralston, Harriet Cook, Ruth Wilson, Dorothy Hunt, Eileen Sullivan, Dorothy Carmack, Helen Ford and Martha Myers, all of Glendale, and Miss Emily Herbert of Hollywood, Messrs. Francis, Albert and Bob Sullivan, Robert Burson, Clarence Ralston, Sylvester Garner, Brigham Bennett, Ernest Lambert, Dean Culbertson, Jack Alspaugh, Kenneth and Grace Jackson.

HALLOWE'EN FROLIC

On Hallowe'en night the ghosts, witches and hobgoblins all joined in making merry at the house of Mrs. Meagher and daughter, Geraldine, of Garfield avenue, as they gave a very unique Hallowe'en party in honor of their house guests from Seattle.

On entering the whole house was aglow with pumpkins shaped in every hideous form, witches on broom sticks, the "spooky man" whose form of welcome meant his very cold hands, ghosts ushering the guests in and out of the hidden mysteries while from the outside the shrieks of alarm told that "goblins will get you if you don't watch out." The open fireplace added cheer and as the fagots were placed on the glowing embers the mysterious murmur of ghosts' voices could be heard telling tales of weird happenings. Many Hallowe'en games were enjoyed. Then aided by strains from the violin the guests assembled in the dining room where the color scheme in black and yellow was cleverly carried out and where the pumpkin pies, ginger bread men and many other Hallowe'en dainties reigned supreme.

At a late hour the guests departed showering many good wishes upon the hostess and her daughter who gave them such a splendid evening of mirth and laughter.

SHEETS AND PILLOWCASES

Friends of Mr. and Mrs. Arthur Dibbern enjoyed a jolly sheet and pillow-case party at their pleasant home at 208 West Lomita Friday evening, all the guests coming in the conventional costume and being met by a sheeted ghost on entering the home, which was very prettily decorated for the occasion. After playing a few Hallowe'en games the company gathered around the fire and told plausible ghost stories calculated to cause responsive shivers. The balance of the evening was devoted to dancing and at twelve o'clock delicious refreshments were served by the hostess. Those present were: Mr. and Mrs. Watts and son of Los Angeles, Messrs. and Mesdames R. Angelica, E. Augustine, Jack West, J. Apfel, W. Gorman of Hollywood, J. F. Hearnshaw and their daughter Marie.

CITY WELFARE BUREAU

(Continued from Page 1)

work done by the municipality through the City Welfare Bureau and the Glendale Welfare Council. All expenditures by the city for this welfare work to be made on requisitions issued by the welfare worker and purchase orders signed by the City Purchasing Agent. It was also proposed that all funds and supplies collected directly by the organizations affiliated in the Welfare Council should be controlled by the Council subject to the order of the Welfare Worker.

After considering the matter in a Committee of the Whole, as stated, the Council voted to establish a Welfare Bureau and to employ a Welfare Worker at a salary of $25.00 per month for a six months' period of probation in order to test out the plan and its value to the community. The City Manager was instructed to appoint as Welfare Worker, Mrs. Robert Blackburn, who had been warmly recommended for the office by the committee which waited upon the officials.

Mrs. Blackburn's duties will begin November 1st and in addition to her office work and investigation of cases referred to her, she will have charge of the stores of food and clothing collected by the Relief Committee of the Tuesday Afternoon Club of which Mrs. R. W. Meeker is chairman, and the similar committee appointed by the Parent-Teacher Federation, headed by Mrs. E. L. Young. A room convenient to the City Hall has been secured where these stores will be kept subject to drafts upon them which will be made by Mrs. Blackburn as the need arises.

Mrs. Blackburn has lived in Glendale for many years. She has been intimately associated through club, church and social affiliations with those who have been active in philanthropic endeavor and commands their confidence because of her work in the Red Cross and elsewhere. For these reasons and because of her natural fitness for the position, the appointment has been approved by all acquainted with the facts.

HALLOWE'EN PARTY

(Continued from Page 1)

Sadie Yarnell as King, and Miss Alice Livsey as Queen, heralded by Miss Margaret Ball and attended by Pages Miss Ina Johnson and Miss Lorene Fritch.

Central Avenue presented an original parody on the witch scene from Macbeth. Miss Annie McIntyre, Prin., was assisted by Miss Elizabeth Edwards, Mrs. Lottie Norberg, Mrs. M. A. Rucker and Mrs. E. E. Harwood.

As in Macbeth the witches gathered about the cauldron and threw into the brew all the teachers' troubles—examination papers, H. C. L., high rent and all—chanting the weird refrain:

"Double, double, toil and trouble,
Fire burn and cauldron bubble."

After singing a weird song and circling about the cauldron where their troubles were stewing they received this admonition:—

Don't be poor wizened sisters of sorrow hereafter,
Laugh till the echoes rebound

All ran from the stage with a burst of wild laughter.

Pacific Avenue featured a pumpkin drill which showed great originality and was one of the most attractive stunts of the evening. To the accompaniment provided by a large black cat at the piano they sang a witty song.

The huge wool bag looking like an animated barley sack with ears standing erect was the costume of Mr. Harwood of Cerritos Avenue, and was the most novel figure present. From the same school came pumpkin-faced yama yama characters and witches.

Superintendent White and co-operators voted Cerritos Avenue pie the best ever. Probably Mr. Ross has a key to Botany and can start plants, but, O, Boy that kind of key won't start a Ford.

The Doran Street School with their four pumpkin pies made a "hit."

Mrs. Fannie O. Stone had charge of the refreshments and was assisted in serving by Miss Lorraine Mitchell, Miss Bertha Berry and Mrs. Ball and made the "hit" of the evening with their delicious doughnuts and coffee.

ITALY WARNS TOURISTS

WASHINGTON, D. C.,—An official dispatch from Rome directs attention of prospective American tourists to housing accommodations, railroad service, and the food supply in Italy. It is stated that a large number of hotels are still requisitioned by the government, and tourists are advised that they are likely to experience serious discomfort in Italy this winter, but that it is hoped conditions will be favorable for them in the spring.—C. S. Monitor.
